COFFETEK

The Nexus Range

Welcome to our successful Nexus product range. The highly sophisticated machine line up is led by our Nexus Hot and Cold Beverage vending machine featuring a customer friendly flat screen digital selection system. The Nexus beverage machine offers a complete Café Bar experience that includes Continental coffee blends such as Café Latte, Cappuccinos and Café Mochas – all derived from either Fresh Bean or Ground (or Instant) Coffee. In addition, the Nexus machine offers Creamy Chocolates, Fresh Leaf Tea, Soup and a full range of Cold Drinks, whether you require a dedicated cold drink solution or snacks and food the Nexus range offers a solution for all requirements.

Why Select Coffetek?

Coffetek has more than 30 years experience in the design and manufacture of beverage dispense systems. Our products have been successfully exported throughout Europe and as far afield as the Far East and Australasia. In the UK we have built an enviable reputation for equipment simplicity and reliability achieved through exploiting our experience in product design and innovation.

Coffetek is a member of the Azkoyen Group of companies, with origins dating back to 1945. Azkoyen specialise in the design and manufacture of a complete range of merchandising systems.

With this combined expertise & resource we are able to offer one of the most comprehensive refreshment solutions in the world.

Coffetek Guarantees

Outstanding quality and reliability. Precise control of product delivery and temperature ensuring the ultimate consumer experience.

Nexus Vend Reliability

Fitted as standard to the Nexus beverage and Nexus H range Coffetek's I-Detect™ guarantees that the selected item is delivered to the customer or their money is returned.

Minimising Impact on the Environment

Coffetek is committed to minimising the impact of its activities on the environment. The Nexus beverage range has an advanced power management system which reduces power consumption during low-use periods.

NEXUS BEVERAGE

The Nexus machine uses a unique flat screen selection system that allows each user to design their own drink – anything from sophisticated Continental Coffee blends (using either Instant, Freshbrew or Fresh Bean Coffees) to Fresh Leaf Teas, Chocolates, Soups and Cold Drink variations. Once a drink has been selected the machine will allocate a unique quick select code. This code can then be used to select the same high quality drink with the minimum of delay. Customised display messages provide the opportunity to communicate drink brands to the consumer.

- Large open cup station enhances the user experience allowing full view of your drink being prepared
- Internal stainless steel panelling - durable & easy to clean
- High capacity cup system dispensing plastic or paper cups
- Internal audit display allows quick reference to drink audits.

NEXUS WATER MODULE

The Nexus water module complements the Nexus hot beverage machine providing a dedicated cold drink solution. Incorporating advanced UV and Brita or 3M filtration this unit provides chilled hydration at the touch of a button.

The Nexus water module eliminates the need for bulky and costly bottled water coolers and has its own dedicated cup system providing a high capacity 550 cup facility.

Available in a water only version or with 2 flavoured drinks this compact unit provides a complete solution for your beverage needs.

Features

- Chilled water at a push of a button
- Brita or 3M water filtration
- Advanced UV filter system
- Optional flavoured drinks

NEXUS H

NEXUS B

The Nexus H & B models complete the Nexus range offering snacks, confectionery, sandwiches and cold drinks. Styled with Nexus black branding the Nexus range will compliment any location.

NEXUS H

Available in the four configurations detailed below the Nexus H has a specification to suit all requirements.

Supplied in a dual zone format the Nexus H is able to dispense cold drinks as well as a range of sandwich and food products*.
