- Transmission and collection of Statistics according to EVA DTS system
- Extended implementation of MDB protocol
- Ease of transport: Samba cabinet passes through 800 mm doors

All snack version

**A new fantastic wide range of choice dances into the market.** From snack only version, or snacks combined with cans and bottles, **Samba Classic** offers maximum flexibility in dispensing thanks to an innovative technology for product distribution and dispensing. The user-friendly interface is designed to be intuitive. The attractive high-impact aesthetics are characterised by an elegant aluminium side panel with a black insert made of bright polycarbonate. The large LED-lit glass front and the new outward opening ergonomic delivery bin complete the image of the vending machine. Ease of maintenance completes the offer of this new Necta vending machine, which is bound to become a well-established point of reference on the market for the years to come. Samba Classic: there is a new rhythm in the Vending sector.

**A+ rated samba classic**

Samba achieves the industry leading A+ Energy rating and exceeds the standard set by the EVA (European Vending Association)

Thanks to its green features, Samba has been awarded with Auto Vending Innovation Award for best in 'Machine Intelligence' (November, 2008).

**ECO friendly features:**

- Energy saving LED lighting
- High performance Eco friendly refrigeration
- Glass panel requires no heating
- 25% more efficient than previous models

N&W lead the way with lean, green production processes. As the first in the vending industry N&W achieved the ISO 14001. We adhere to a stringent Environmental Management System and adopt Life Cycle Assessment for our machines. Thanks to our efforts, N&W has won 'Best Sustainability award' (Avex 2007) and 'Best Sustainable Development & the Environment' (Vending Paris 2008).
